

Important Notice

The Central Monitoring Station (CMS) applications need to be run with an appropriate dongle. There are various types of USB dongles available:

- Center V2 dongle
- Dispatch Server dongle
- Vital Sign Monitor (VSM) dongle
- Control Center dongle
- Combo dongle: Dispatch Server + VSM
- Combo dongle: Center V2 + VSM

Every dongle must be used independently. You cannot use two or more dongles into one computer.

To obtain an appropriate dongle, please contact your nearest distributor.
